Hi,
I just upgrade Redmine from 1.3.3 to 1.4.1. I updated the the Hudson plugin to 1.0.8, too.
When I want to see the details of an issues which has related commits I get an error message:

When I delete the history in the Hudson plugin settings everything is fine until the next Hudson build. So it seems version 1.0.8 is still not completely compatible with Redmine 1.4.1. Could you take a look on this?

Thank you very much!
Franz
