Description

2013/4/24 Molnár László:

Hi Kusukawa,

Your plugin is a great improvement and we love it. Thanks.

Because I can not read your comments and tasks on your Redmine website because of the language I would ask a little help in this way.
We added some custom fields to the worktime (start and end time) and we found if the hour is not changed just these custom fields, the changes will not updated in the database. Is it a concept or is it a bug?

Thank your advance in advance,
Laszlo
