**Work Time - Defect #1336**

**Internal error when a user is deleted in Redmine**

06/27/2014 07:48 PM - Olivier Houdas

</table>

**Description**

**Steps:**

1. Activate Worktime on a project
2. Make sure user "X" is listed in the list of members, displayed in the worktime tab
3. Delete that user in Redmine admin (not simply locked, but deleted)
4. Display the Work time tab again on the project

**Result:** Internal error

```
Processing by WorkTimeController#show as HTML
  Parameters: {"id"=>"geoconcept"}
  Current user: admin (id=1)
Completed 500 Internal Server Error in 2136.2ms

NoMethodError (undefined method `active?' for nil:NilClass):
  plugins/redmine_work_time/app/controllers/work_time_controller.rb:638:in `block in member_ad
  d_del_check'
```

Fix suggestion:
Add a test on the user object in the loop (see patch attached)
This is not perfect (deleted users remain in the wt_members_order table), but at least it avoids the internal error.

**Associated revisions**

Revision 325:e0ca1cf18c0b - 07/06/2014 03:24 PM - Tomohisa Kusukawa
fixes #1336 Internal error when a user is deleted in Redmine

Revision a2d488c - 07/06/2014 03:24 PM - Tomohisa Kusukawa
fixes #1336 Internal error when a user is deleted in Redmine

**History**

**#1 - 07/06/2014 03:20 PM - Tomohisa Kusukawa**
- Status changed from New to Assigned
- Assignee set to Tomohisa Kusukawa
- Target version set to 0.2.15

Thank you very much for this bug report.

**#2 - 07/06/2014 03:33 PM - Tomohisa Kusukawa**
- Status changed from Assigned to Resolved
- % Done changed from 0 to 100

Commit:e0ca1cf18c0b

**#3 - 07/07/2014 01:05 PM - Tomohisa Kusukawa**
- Status changed from Resolved to Closed
I released Ver 0.2.15.
