#### Description

It was very cool when you can implement the same features, as you have done by testcase, for requirement from testlink.

And the other two features here are very helpfull too!

#### History

- Target version set to 1.1.0 (for TestLink 1.9)

I think "Requirement" is new feature in TestLink 1.9.

I use All-in-one TestLink package for Japanese.

It don't be released for 1.9, yet.

I upgraded TestLink only, but it didn't work correctly.

Please wait, until it is released.

Hi,

I'm also waiting for this feature. Do you know when the next version will be released?

Thanks in advance,

Diego
